SURETY BONDS FOR SMALL TO MEDIUM BUSINESS

WHAT IS A SURETY BOND?

A Surety Bond or Surety is a promise by a Surety (usually an insurance company) to pay one party (the Principal/Beneficiary) a certain amount if a second party (the Contractor) fails to meet their obligation - such as fulfilling the terms of a contract.

Businesses are often required to provide a performance bond that gives stakeholders a guarantee of financial compensation in case the business cannot complete the project as specified.

Increasingly, such Performance Bonds are a prerequisite for contracts being awarded in a wide range of fields.

Being able to provide a Performance Bond opens doors for businesses, making it far more attractive for decision makers to award contracts to them.

WHY CHOOSE A SURETY BOND OVER A BANK GUARANTEE?

The key advantage of utilising a Surety Bond over a bank guarantee is that it frees up your cash / security assets that are usually pledged to the bank (and frozen) when a bank guarantee is issued. A Surety Bond on the other hand usually only requires a Deed of Indemnity to be executed, 'freeing' up the resources tied up in a conventional bank guarantee— and can be utilised in a more effective and efficient manner to grow the business instead.

TYPES OF SURETY BONDS BGA OFFERS

CONTRACT PERFORMANCE BOND

Secures the contractors' performance obligations to the sum specified in the contract.

DEFECT LIABILITY (MAINTENANCE) BOND

Provided to secure post completion obligations during the warranty or defect liability period. This is generally for a 12 month period post practical completion.

RETENTION BOND

At completion of a project, you may want your retained funds returned to you. Offering a Retention Bond thus provides security to the Principal in exchange for the release of the cash retention held.

ADVANCE PAYMENT—OFFSITE MATERIAL BOND

Serves to secure the position of the contractor where funds are advanced for the purpose of purchasing equipment, staff mobilisation or site establishment etc. The amount of the Bond issued may be up to 10% of the contract value.

WHY CHOOSE US?

- ★ Underwritten on A+ rated (S&P) paper of Tokio Marine & Nichido Fire Insurance Co., Ltd.
- ★ Bonded Global Australia is a specialist Surety underwriter and an arranger of Surety Bonds to both the Australian and New Zealand market
